1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-15,17,19-33,35,37-38,40-42,45,46 are rejected under 35 U.S.C. 102(a) as being anticipated by Lakhotkin et al (EP 1158 070).

3. Claims 1-15,17,19-33,35,37-38,40-42,45,46 are rejected under 35 U.S.C. 102(e) as being anticipated by Lakhotkin et al (6,800,383).

4. The Lakhotkin et al rejections are maintained for reason of record in the previous office action. Applicant's arguments filed 1/19/06 have been fully considered but they are not persuasive. The applicant argues that Lakhotkin et al does not disclose a self-sharpening tool. The examiner disagrees. Lakhotkin et al discloses the claimed coated article to be used as a cutting tool and thus included the claimed self-sharpening tool, and thus the rejection stands.

5. Claims 1-46 are rejected under 35 U.S.C. 102(b) as being anticipated by Braun (WO 97/39862)

The rejection is maintained for reason of record in the previous office action. Applicant's arguments filed 1/19/06 have been fully considered but they are not persuasive. The applicant argues that Braun et al does not disclose the alignment on the micro scale. The examiner disagrees. Even a columnar microstructure discloses the claimed alignment and thus the rejection stands.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
